EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an e-mail correspondence with Mr. Winston Hsu on March 13, 2006.

The application has been amended as follows:

Claims 20-29 have been canceled.

Allowable Subject Matter

2. Claims 1-3, 5-13 and 15-19 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. The prior arts of record do not anticipate or render obvious to one skilled in the art a backlight module comprising various elements as claimed, more specifically the limitations such as a plurality of fluorescent layers of different color emissions disposed on a surface of the assembly of the rear and front substrate, a light-shielding layer disposed under the two adjacent fluorescent layers of different color emissions and an opening disposed under each fluorescent layer are considered novel.
5. The closest reference USPAT 6,683,659 and US 2003/0122771 disclose a backlight module comprising an assembly of front and rear substrates with power electrodes and a discharge gas between the substrates. Further, USPAT 6,683,659 shows a black matrix layer between the two phosphor layers. However, the newly cited references US 2004/0085021 (related to a gas discharge panel), USPAT 5,952,782 (surface discharge plasma display panel with a light-shielding film between adjacent electrodes) and USPAT 5,926,239 (backlight for color liquid crystal displays) alone or in combination with any other prior art references fail to teach or suggest a light-shielding layer being disposed under the two adjacent fluorescent layers of different color emissions and an opening being disposed under each fluorescent layers.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
